16-17	Samantha Burns	yes	yes	yes		yes	yes		Grandview Hospital	

Note: Graduation rate is based on the number of students who began the “final half” and successfully completed the program. The “final half” of the program begins after the first 90-days; approximately when the 2-month didactic period ends and clinical rotations begin.

Note1: SCHC BOC Pass rate requirement is a minimum 75% average for three consecutive years for the graduates who take the exam within the first year of program completion. Data is collected and listed annually, however.

Note2: Job Placement rate includes students who report back to the program within 1 year, if not hired prior to graduation.
